- These times may vary slightly from week to week but as an average, this is what we aim to teach.
- There are many cross- curricular learning opportunities that will boost curriculum time in many of these areas, particularly foundation subjects.
- Occasionally the school will hold themed weeks or days which may focus on a particular subject
- Some subjects are not taught weekly but may be on a two week cycle
- Each week there are opportunities for mindfulness, peer massage and for adults to read to children. This may mean that some lessons are slightly shorter at times but the time will not always be taken away from the same subjects.
- DT may be taught in longer blocks and not weekly due to the tools and materials needed
- RE also to be taught as a cross-curricular day project once a term (3 x a year)
